- A. A “course drop” is the complete removal of a course or credits from a student’s schedule without a transcript notation.
- B. A “course withdrawal” is the removal of a course or credits from a student’s schedule with a transcript notation of Withdraw (“W”). The course name will remain on a student’s transcript but will not factor into the credit or GPA calculation.

The ability to add, drop, or withdraw from courses with or without transcript notations is based on the time at which a student seeks to do so, as follows:

Fall or Spring	Compressed	No later than the end of 7% of the scheduled course length	Not Applicable	No later than the end of 7% of the scheduled course length	No later than the end of 60% of the scheduled course length
